Cases
in 2013

**Vaccination
is the best way
to protect
yourself and your
loved ones
against
measles.**

VACCINE INFORMATION

Measles can be prevented by the combination MMR (measles, mumps and rubella) vaccine. Public health experts recommend all children receive two doses of MMR vaccine. North Carolina law requires all individuals to be immunized with two doses of MMR prior to school entry.

1st dose
beginning at
12 months
of age

Booster
at
4-6 years
of age
